

# METROECONOMICA

INTERNATIONAL REVIEW OF ECONOMICS

VOLUME 52 2001

## INDEX

<b>Claudio De Vincenti</b> Customer Markets, Inflation and Unemployment in a Dynamic Model with a Range of Equilibria	1
<b>Peter Flaschel</b> Viability and Corridor Stability in Keynesian Supply-driven Growth	26
<b>Christian Lager</b> Joint Production with 'Restricted Free Disposal'	49
<b>Christian E. Weber</b> Lagrange Multipliers as Marginal Rates of Substitution in Multi-constraint Optimization Problems	79
<b>Giancarlo Bertocco</b> Is Kaldor's Theory of Money Supply Endogeneity Still Relevant?	95
<b>Romano Piras</b> Government Spending Composition in an Endogenous Growth Model with Congestion	121
<b>Duncan K. Foley</b> Notes on Burgstaller's <i>Property and Prices</i>	138
<b>Harvey Gram</b> Critical Comments on André Burgstaller's <i>Property and Prices: Towards a Unified Theory of Value</i>	149
<b>Fabio Petri</b> Burgstaller on the Common Core of Classical and Walrasian Economics	162
<b>Fausto Gozzi and Giuseppe Freni</b> On a Dynamic Non-substitution Theorem and Other Issues in Burgstaller's <i>Property and Prices</i>	181
<b>André Burgstaller</b> Some Metatheoretical Reflections and a Reply to Critics	197
<b>Riccardo Leoncini</b> Segmentation and Increasing Returns in the Evolutionary Dynamics of Competing Techniques	217
<b>Ian Steedman</b> Exhaustible Natural Resources and Sraffian Analysis	239
<b>Christian Bidard and Guido Erreygers</b> The Corn-Guano Model	243
<b>Christian Bidard and Guido Erreygers</b> Further Reflections on the Corn-Guano Model	254
<b>Eiji Hosoda</b> Recycling and Landfilling in a Dynamic Sraffian Model: Application of the Corn-Guano Model to a Waste Treatment Problem	268
